TRAINING BULLETIN

Recognizing Clandestine Drug Lab Operations

Clandestine Drug Lab Operations: This awareness level course will provide first responders with information that would help identify situations that may involve an illegal drug manufacturing operation. The manufacturing of drugs such as Meth-Amphetamines uses a wide variety of hazardous materials and poses special risks from fire and explosion when being cooked. Labs are being discovered in residential dwellings, garages, basements, motel rooms, and other unsuspecting locations. This course will provide participants with information as to what materials could indicate the presence of illicit operations and some of the special risks associated with the making of the drug along with appropriate procedures to be considered for the safety of responders.

The course consists of 4 hours of training presented on as follows:

Class starts at 8 A.M. Saturdays and 6:30 pm Weeknights.

UNLESS OTHERWISE LISTED

Prerequisites: NONE

Pre-registration is required. Class size is limited to 24 students!

To pre-register use the following link:
