RECORDS

One of the duties of the Oneida County Clerk is to serve as the Records Management Officer (RMO) for the county. As RMO, the Clerk is responsible for the storage and maintenance of the County's historical information. The Records Department of the Oneida County Clerk's Office has a vast number of historical resources.

The most commonly accessed public records are stored in the County Office Building in downtown Utica, on the 5th floor in the County Clerk's Office. Older documents can be found in the Records room located on B1 in the County Office Building and at the Regional Records Center in Westmoreland. The Westmoreland facility provides a central storage location that is equipped to handle the large volume of documents in the Clerk's care and also to ensure their continued preservation.

Many records housed in the Office of the County Clerk are public records. This means that any person is free to browse through them at any point during our normal working hours of operation. These public records include: mortgages, deeds, civil actions, criminal files, Board of Legislators records, and many other types of records the County of Oneida has accumulated since its inception in the late 1700's. Located on the 3rd floor of the County Office Building are naturalization records dating back to the early 1800's. We also have a number of closed records that, due to the passing of time, are now open to the public (based on state law) which consist of coroner's reports, district attorney, sheriff, and a variety of other records.

VITAL STATISTICS

In NYS the County Clerk's Office is not responsible for vital records. To obtain birth, death, or marriage records, contact the clerk of the town or city where the birth, death, or marriage occurred. For example, birth certificates for persons born at St. Luke's Hospital *after* May 1957 are housed with the New Hartford Town Clerk. Birth certificates for persons born at St. Elizabeth's Hospital and St. Luke's *before* May 1957 are housed with the Utica Department of Vital Records at Utica City Hall.

You may also obtain records through the New York State Bureau of Vital Statistics. They can be reached by calling (518) 474-3077 or by visiting their website at www.health.state.ny.us.

GENEALOGY

Although the records center does not house Vital Records, many of our resources are useful in compiling genealogies. We have a number of city directories for the cities of Utica & Rome, large collection of DAR records, marriage records from 1908-1935, local newspapers from 1841-1879, as well as deeds and mortgages. For other resources, you may wish to visit the Utica Public Library which is just a few blocks from the County Office Building. The internet is also a good place to look for genealogy information. Two sites you may wish to visit are: www.dar.org/library and www.familysearch.org
