This class is designed for the “Do-it-Yourselfer” who wants to learn how to replace their old windows using safe work practices **OR** owners who are planning on hiring contractors to replace their windows. Window replacements are expensive and this course will prepare you to ask the contractor the right questions and get the right price and materials.

## **Topics Covered:**

- Accurately measuring and ordering windows
- Equipment and supplies required to replace your windows
- Preparation of rooms and units to reduce lead dust spread
- Occupant/pet safety during renovations
- How to borrow a HEPA vacuum to help with lead dust clean up
- How to remove your old windows
- How to replace it with the new window
- How to clean unit and HEPA vacuum
- How to dispose of old windows safely

**UPCOMING CLASSES: March 21 & April 18**

**Classes take place from 6-9pm. Cost: \$49  
MVCC Education Center, 524 Elizabeth St. Utica**

Classes are limited to 8-10 students and are hands-on.  
Instructor: Mike Tartaglia
